

DEFENSE LOGISTICS AGENCY

AMERICA'S COMBAT LOGISTICS SUPPORT AGENCY

DLA Transaction Services Overview

June 11, 2015

DLA Transaction Services

- **DLA Transaction Services Overview**
- Requisition to Billing Scenario
- MILSINQ
- eDAASINQ
- Logistics Data Gateway (LDG)
- Wrap Up

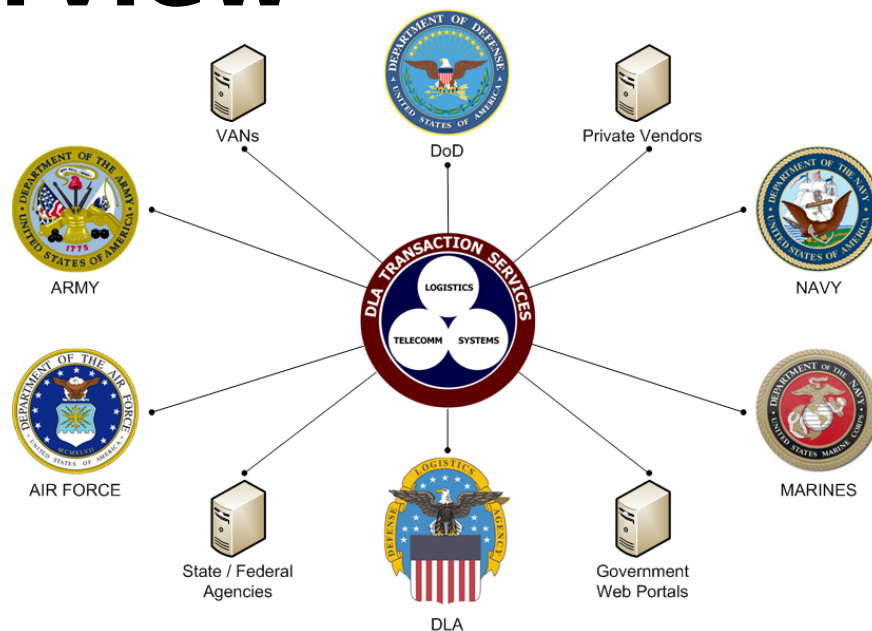

Deliver the right solution on time, every time

DLA Transaction Services Overview

Who They Are:

- DLA Transaction Services (Formerly DAASC)
- An End-to-End System Design Center Operating 24x7, 365 Days.
- Host to Mission Assurance Category (MAC) I Systems
- DoD's Workhorse for Transaction Processing & Logistics Support

What They Do:

- Provide a full range of Transaction Processing capabilities (Receipt, Edit, Route, Translate, Convert, Deliver)
- Support Acquisition, Financial, Logistics, Transportation, Healthcare and Travel Business Areas.
- Enables interoperability between disparate DOD networks/systems
- Process 21 Million Transactions (Daily) in support of 225,002 DoDAACs (MILS) and 32,239 Trading Partners (EDI)

3 of 44

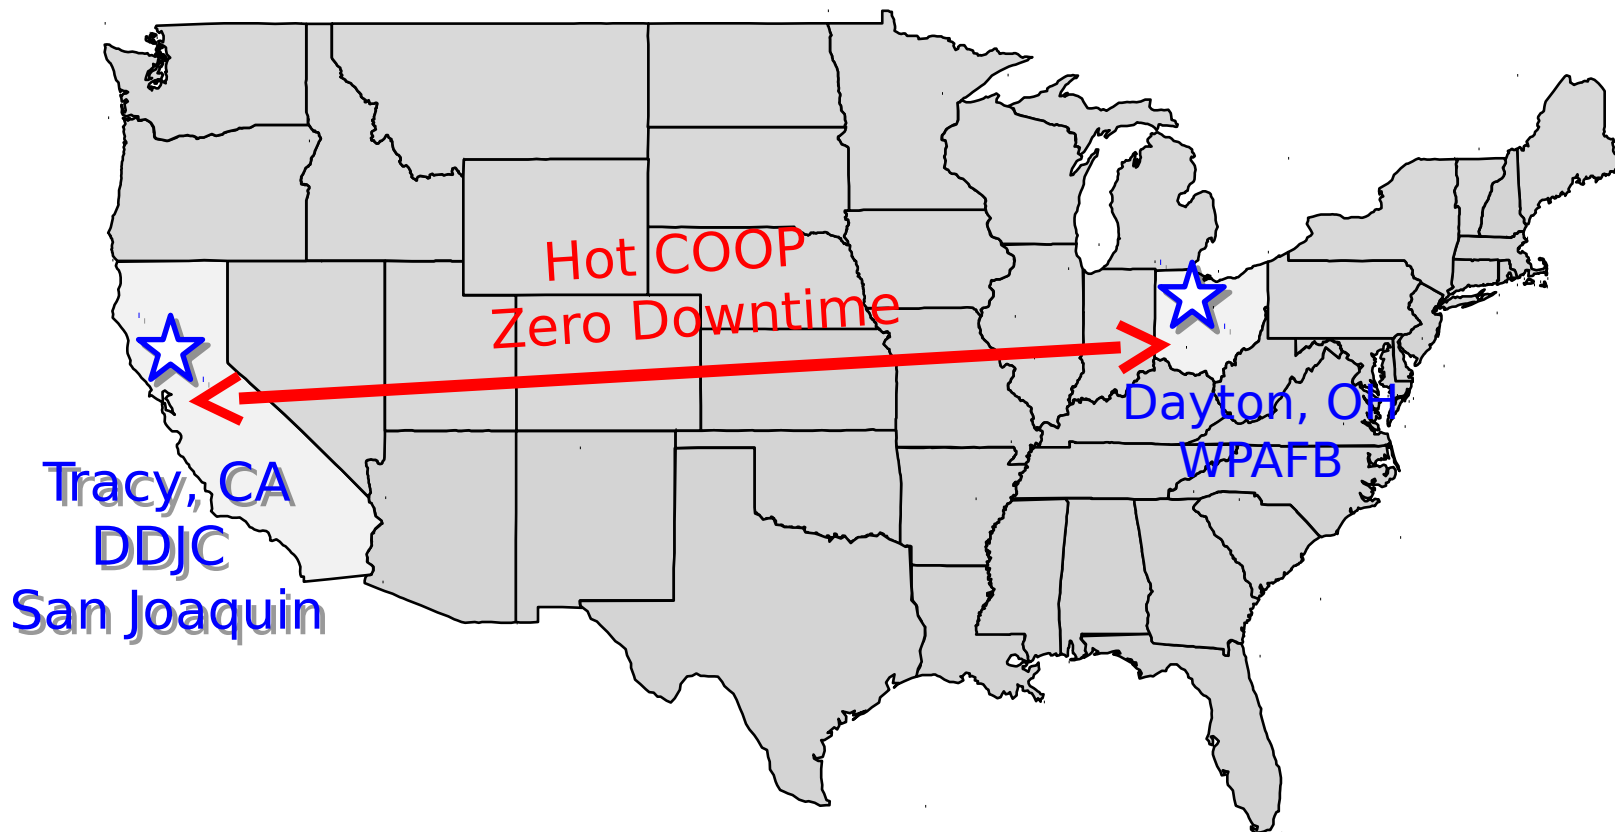

Core Business

- Most transactions that we process fall in to two broad categories:
 - Military Standard (**MILS**) transactions – 59% of all transactions
 - Electronic Data Interchange (**EDI**) transactions – 41% of all transactions
- **MILS** transactions are legacy transaction sets used for over 45 years based on the IBM 80-column punched card
 - MILS transactions are used in various forms including: MILSTRIP, MILSTRAP, & Extended MILS
 - Supports over 266K DoDAAC activities & locations
 - 1,174 Document Identifiers (DICs) in use
- **EDI** transactions are modern, variable length transaction sets which can consist of:
X12, XML, iDoc and UDF transaction file types
 - Supports 50 different transaction sets and over 32K trading partners
 - A subset of X12 EDI transactions exists which are called Defense Logistics Management System (DLMS) transactions

DLA Transaction Services Processing Locations

*Dual Sites Provide Concurrent Transaction Processing Capability.
DLA Transaction Services Dayton & Tracy are
DLA's two Operational Data Centers.*

DLA Transaction Services and DAAS

- DLA Transaction Services is the **organization**, part of DLA J-6.
- DAAS, Defense Automated Addressing System, is the **system** used to process logistics transactions.
- DAASC, Defense Automated Addressing System Center, is previous name of DLA Transaction Services. Same thing, just renamed.

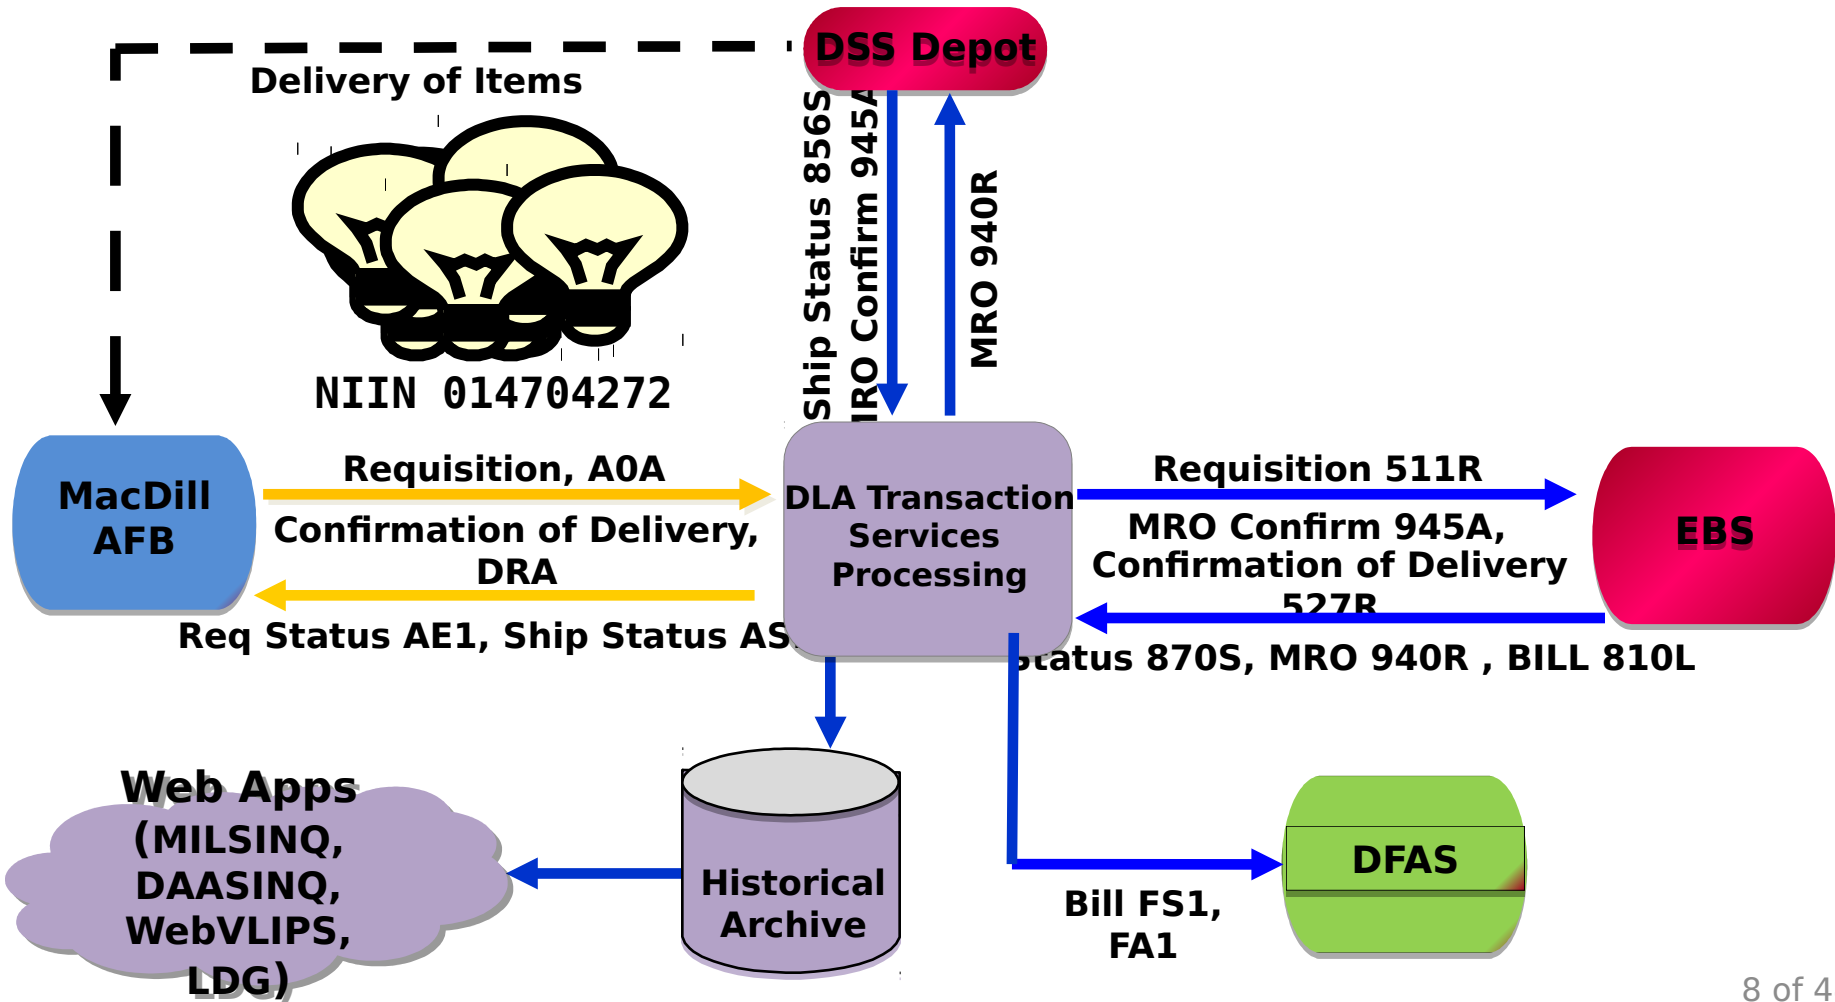

DLA Transaction Services

- DLA Transaction Services Overview
- **Requisition to Billing Scenario**
- MILSINQ
- eDAASINQ
- Logistics Data Gateway (LDG)
- Wrap Up

Requisition to Billing Scenario

Example flow of a requisition for 12 lamps ordered by MacDill AFB, Document Number FB490032490003

Requisition to Billing Scenario

- Certain information from the Requisition carries over to the

Billing Transaction

Requisition March 2015

    R1 --> B2
```

- Signal Code “J” in rp 51 means Ship-to is rp 45-50 (W34XC5) and the Bill-to is rp 30-35 (W91000), same as rp 30-35 Summary Billing Record (SBR)
- Fund Code “51” in rp 52-53, same as rp 52-53 in SBR
- Fund Code “51” corresponds to 2152020 in Fund Code Table, same as rp 54-64 Appropriation/Fund Account (charge) in the SBR
- Cost of Item is multiplied by quantity and rolled up into

DAAS Edits

- Minimal edits on Billing Transactions, most occur on original Requisition
- Batch integrity – Summary plus Detail must not be more than 496 lines, will generate a single reject and reference the Summary bill only
- DODAAC in rp 30-35 must be valid and authorized for billing, (Authority Code 01, 06, 07 rejected)
- Detail Count in rp 5-7 of Summary must match number of Detail transactions
- Dollar Value in FS1/2 must equal sum of Dollar Value of all Detail transactions
- Standard Line of Accounting (SLOA) data elements in the 810L must match the SFIS Fund Code table or else reject.
- Other edits include images (copies) as requested

10 of 44

DLA Transaction Services

- DLA Transaction Services maintains several Web Applications for users to look up transactional and messaging information.
- MILSINQ, or MILSBILLS Inquiry allows users to query Interfund Bills
- eDAASINQ and DAASINQ contain information for DOD Activity Address Codes (DODAAC), National Item Identification Number (NIIN), Routing Identifier Codes (RIC), Military Assistance Program Address Codes (MAPAC), Communication Routing Identifiers (COMMRI), and Distribution Codes
- WebVLIPS and Logistics Data Gateway (LDG) allow users to look up transaction history by

Document Number

DLA Transaction Services

- DLA Transaction Services Overview
- Requisition to Billing Scenario
- **MILSINQ**
- DAASINQ
- Logistics Data Gateway (LDG)
- Wrap Up

MILSINQ

- MILSBILLS Inquiry (MILSINQ) provides users the capability to query and display Interfund Bills.
- MILSBILLS data is stored for 1 year, FMS bills are stored for 2 years
- Allows users to retransmit bills
- Allows users to view Materiel Obligation Validation (MOV) on requisitions
- CAC and System Access Request (SAR) required

MILSINQ Review

- Use as much data as you have to limit your query results, then expand parameters if needed.
- RADAY is a Julian date that indicates when DAAS received or processed messages
- When using searches with RADAY: If you don't find a Bill using the RADAY you expected, try the one before or after. It is possible for DAAS to receive a message one day and process the next, especially at end of day.

DLA Transaction Services

- DLA Transaction Services Overview
- Requisition to Billing Scenario
- MILSINQ
- **eDAASINQ**
- Logistics Data Gateway (LDG)
- Wrap Up

eDAASINQ

Two Versions available:

- eDAASINQ (*enhanced*-DAASINQ) is an enhanced version of the basic DAASINQ, includes all of the above, plus
 - o Communication Routing Identifiers (COMMRI)
 - o Distribution Codes
 - o eDAASINQ Provides additional queries and downloads by service or "All" in "TA1" delimited format in addition to all the basic functionality that is available in DAASINQ.
 - o eDAASINQ is PKI-enabled and access to the application may be requested by submitting a System Access Request (SAR).
- DAASINQ provides information on
 - o DOD Activity Address Codes (DODAAC)
 - o National Item Identification Number (NIIN)

eDAASINQ

The screenshot shows the eDAASINQ homepage. At the top left is the Defense Logistics Agency (DLA) logo. To its right, the text "DEFENSE LOGISTICS AGENCY Transaction Services" is displayed. Below this, a blue banner contains the "eDAASINQ" logo and links for "Contact Us", "Help", and "Home". The main content area is titled "DAASINQ Home" and contains a red-bordered box with the following text: "For access to the enhanced version of DAASINQ, please follow guidelines provided for an account via DLA Transaction Services System Access Request (SAR) at <https://www.transactionservices.dla.mil>, Request Login ID and Password, DAASINQ. The URL for the DoD PKI-enabled version is <https://www2.transactionservices.dla.mil/portal/>." Below this box is an "Important Notice" section with the text: "Department of Defense (DoD) Public Key Infrastructure (PKI) DoD has mandated that all personnel who access DoD systems must use PKI for all private web-enabled applications. By 9 June 2008, you will be required to have a DoD-approved PKI or External Certificate Authority (ECA) certificate to access this site. To learn who to contact to obtain a DoD-approved certificate click here." On the left side of the page, there is a vertical navigation menu with links: "What is DAASINQ?", "COMMRI", "Distribution Code", "DoDAAC", "MAPAC", "NIIN", "RIC", and "Downloads and Reports".

Routing vs Delivery

Message Number	YMM	Billing DODAAC	Bill Number	Billed DODAAC	DOC ID	To COMMRI	Last Transmit Info	DAAS SSN - DTG	Retransmits/Rejects
1 <input type="checkbox"/>	505	W52H09	1Y7ZW	W91000	FS1	RUSAJUA	RUSAHRU0810R1480152	RUQAZZN7169R1480212	0

- Transactions *ROUTE* to DODAACs or RICs.
- *ROUTING* is determined by MILSTRIP, MILSBILLS and DLMS manuals, in addition to service-unique business rules.
- Transactions are packaged in messages that are *DELIVERED* to a COMMRI.
- *DELIVERY* is a communications function separate from *ROUTING*.
- In our example, the Interfund Bill was submitted by **W52H09** and it came to DAAS using COMMRI **RUSAHRU**.
- It *ROUTED* to **W91000** but was *DELIVERED* to **RUSAJUA**.

RUTTTTTT - Terminate. Transactions are written to history (e.g., VLIPS, LDG), but terminate in DAAS.

RURRRRRR - Rejected. The transaction has failed a DAAS edit.

RUMMMMMM - Mail. An outdated COMMRI that functions the same as RUTTTTTT. Transactions process but terminate.

RUSAZZZZ - A COMMRI assigned automatically by DAAS when new DoDAACs or RICs are created.

eDAASINQ

- Messages 1-4 from MILSINQ example had an invalid BILL TO, DBAA00
- DBAA00 is a MAPAC, indicated by 'D' in the first position
- MAPAC's do not have Authority Codes, therefore cannot be billed directly
- MAPAC Point of Contact Information at bottom of screen

Note: RI(s) RUMMMMM, RUTTTT, RURRRRR, RESERVE, RDELETE - for DAAS Use Only

TAC INFORMATION

• 531CMMXS MXDPC

EFF DATE: 01/14/2010
DEL DATE:

Messages 7-9 from MILSINQ example rejected Unauthorized BILL TO, F2DCBW

DAASINQ shows F2DCBW has Authority Code 01 - Ship-To Only

DODAAC in rp30-35 must be valid and authorized for billing, Authority Code 01, 06, 07 reject

eDAASINQ

- Authority Code explanations from DLM 4000.25, Defense Logistics Management System (DLMS), Vol 6, Logistics Interoperability Support Services, Chapter 2 DoD Activity Address Directory, http://www2.dla.mil/j-6/dlmso/elibrary/manuals/dlm/dlm_pubs.asp
- BILL COMMRIs are assigned by direction from the Service/Agencies. They associate to an ADSN for Air Force, and an FSN for Army.
- Bills are delivered to **BILL** COMMRIs, unless none exists in DAASINQ, then delivered to **DP** COMMRI
- There are many DAAS use-only COMMRIs. RUTTTTTT usually means a DoDAAC is not tied to a supply system. The data must be sent somewhere. RUMMMMMM was used for the DAAS Mailer Process and will eventually be cleansed. RURRRRRR means the transaction rejected.

DLA Transaction Services

- DLA Transaction Services Overview
- Requisition to Billing Scenario
- MILSINQ
- eDAASINQ
- **Logistics Data Gateway (LDG)**
- Wrap Up

Logistics Data Gateway (LDG)

- LDG is another application available to query billing transactions
 - Useful if you are doing extensive research on old bills
 - At least three years of data
 - Can do searches by with many of the same parameters as MILSINQ, but not as constrained by date range.
- LDG Queries:
 - Interfund Bills by Billed DoDAAC (buyer) and Bill Number
 - Interfund Bills by Billing DoDAAC (seller) and DAAS Received
 - Interfund Bills by Billing DoDAAC (seller) and Bill Number
 - Interfund Bills by Billing DoDAAC (seller) and DAAS Received Date

- **Wrap Up**

Access to Applications

- Access to DAASINQ
 - <https://www.transactionservices.dla.mil/daasing>
 - Requires a PKI Certificate
- Access to MILSINQ, eDAASINQ or LDG (CAC required)
 - <https://www.transactionservices.dla.mil>
 - To submit SARs choose Request Login ID and Password, navigate to appropriate SAR page.
 - Applications are accessed through the DLA Transaction Services Portal once a System Access Request (SAR) is approved.
- You must log-on every 300 days or account will become be revoked, after 60 days it is deleted. For revoked accounts contact the Help Desk.
